IFEDA NORTH

Thursday 23rd April , Delyn Safety, Mold, Chester 10.00 am – 4.00pm

This event will be an ideal opportunity to network with fellow members and find out all the latest fire industry news.

There are sessions on:

Fire extinguisher installations

Industry implications of BS 5306-9 (6643-1 as was) and 'verified alternatives' for both the fire technician and the company owner.

Safety signage

The latest updates regarding safety signage, specifically fire exit signs and alarm zone plans plus some myth-busting regarding BS 7010.

Your questions answered

Other committee members will be attending including Marc Gray, one of our fire alarm trainers, who will be happy to answer your fire alarm and SP203 related questions.

Also planned:

Colin Payne, your National Chairman, will run a question and answer session on any of the 'burning' issues of the day.

There will be a session on marketing your business on a low (or small) budget i.e. tips on quick and easy actions to take, and points to consider, especially when you are pressed for time.

A buffet lunch will be provided, so booking is essential.

To book please contact IFEDA on info@ifeda.org or call 0844 225 1800
