Suspended Supply of 'Firepower' Wet Extinguishers

Please be advised that during a routine quality control check of Firepower branded 6l foam-stored pressure extinguishers, we identified a manufacturing non-conformity, which requires further review.

Whilst the issue does not affect the functionality of the extinguisher, we have taken the prudent step of suspending sales pending our review.

Quality control is vitally important to us and, with this in mind, we have also made the decision to temporarily suspend sales of other associated Firepower foam and water-stored pressure extinguishers as they are similarly manufactured.

Please note that we stock a Powerx range of extinguishers, which are **NOT** affected by this issue, so an equivalent extinguisher can be purchased as an alternative. This will ensure an uninterrupted supply of extinguishers while we review this matter.

The affected Firepower extinguishers and associated part numbers are:

<u>Part Number</u>	<u>Item Description</u>
9233/00	Firepower 3ltr Afff Foam SP
9234/00	Firepower 6ltr Afff Foam SP
9235/00	Firepower 9ltr Afff Foam SP
9909/00	Firepower 9ltr Water SP
9910/00	Firepower 6ltr Water Spray SP
9911/00	Firepower 3ltr Water with additive SP
9912/00	Firepower 6ltr Water with additive SP
9503/00	Firepower 6ltr Wet Chemical SP

Important Information

The equivalent 'Powerx' part numbers are as follows:-

<u>Part Number</u>	<u>Item Description</u>
81/03406	Powerx 3ltr Afff Foam SP
81/02903	Powerx 6ltr Afff Foam SP
81/02904	Powerx 9ltr Afff Foam SP
81/02905	Powerx 9ltr Water SP
81/03404	Powerx 6ltr Water Spray SP
81/03402	Powerx 3ltr Water with additive SP
81/03403	Powerx 6ltr Water with additive SP
81/03408	Powerx 6ltr Wet Chemical SP

Firepower 2l foam SP extinguishers, CO₂ extinguishers, powder extinguishers and cartridge-operated extinguishers are **NOT** affected and can be ordered as normal.

Could you please contact us at your earliest convenience to advise us whether we should substitute any orders received from you for the Firepower items currently on hold with the Powerx equivalent. If you do agree to use the Powerx products as an interim solution you can place orders for Firepower extinguishers as normal and we will automatically substitute for Powerx at our end. Alternatively you can insert the Powerx part number(s) as detailed above on your order rather than the Firepower' part number(s) you normally use, whichever is your preference.

Please accept my apologies for any inconvenience this may cause.

Should you have any queries with any aspect of the above please contact your TG Account Manager.

Regards,

Mark Latham
Managing Director
